The purpose of the tour is to orient and familiarize the Task Force with the characteristics of the existing city and areas where future growth may or may not occur. This information will contribute to the formation of a variety of options of the future land use and transportation plans for the City, to be studied by the Task Force in the coming months. The tour will also highlight examples of the kind of residential, employment, shopping, and mixed use development that might best fit the needs of the future.
